SAMES KREMLIN Inc. would like to announce that we now provide E-Stat gloves for electrostatic spray painting. We have received several requests to offer these gloves and they are in stock and available for ordering.

The E-Stat gloves have continuous conductive strips that run from the inside of the palm to the outside surface of the gloves. This grounds the worker when using electrostatic spray paint guns and eliminates 'wrap back'.

The polyurethane fabric material resists solvents, is ideal for cleanroom environments, and 100% silicone-free.
